

# Is Chelation Right for You?

## CHELATION . . .

- is a non-invasive medical alternative to open heart bypass surgery
- treats coronary heart disease
- requires no recovery or down-time
- treats every artery in the body
- treats inoperable small vessel disease of heart
- detoxifies heavy metals; FDA approved to treat lead toxicity
- can reduce need for pharmaceuticals
- helps reduce spasm of arteries, reducing angina
- reduces or eliminates claudication (calf pain with exercise)
- is anti-inflammatory, anti-oxidative and anti-clot forming
- reduces incidence of heart attacks, strokes, and death
- reduced recurrent heart attacks by 52 percent in diabetics
